ENTRY TICKET – SHOW WITH YOUR FINGERS...

How sure are you that you can name and sort a variety of common animals?

1 - Unsure

2 - Slightly sure

3 - Quite sure

4 - Certain

PART 1:
DISCOVER THE ISSUE

PICTURES FROM A VET

Look at the pictures of different animals. The labels have been mixed up!
Have all the animals been given the correct name?

cat

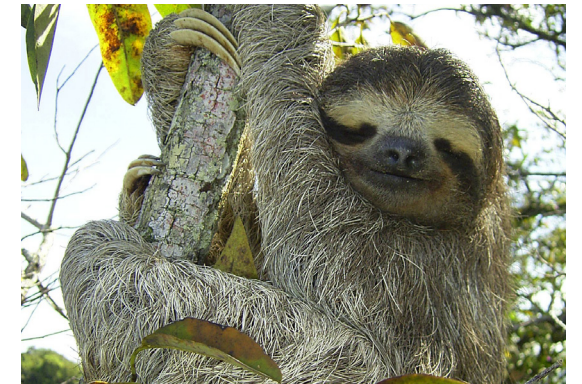

tortoise

horse

sloth

WVS VET REPORT

Hi! I'm Bridget. I'm a wildlife vet in Malawi, a country in Africa. In this photo, I'm holding my favourite animal - a pangolin!

Did you know that there are different vets for all sorts of animals?

- Small animal vets look after pets
- Large animal vets take care of farm animals
- Wildlife vets treat animals in the wild

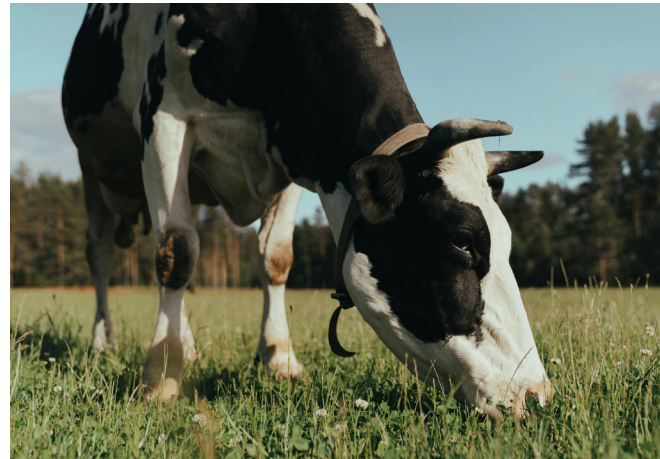

TYPES OF ANIMALS

We can put animals into different categories:

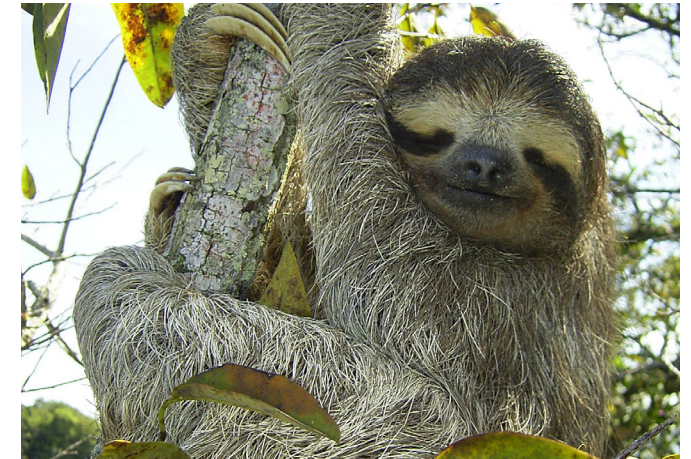

pets

farm animals

wild animals

PETS

Pets are animals that usually live with people at home. They are often kept for company.

Owners look after their pets and give them the right food and clean water.

FARM ANIMALS

Farm animals live on farms and are kept for the products they give us such as meat, milk, wool or eggs.

Farmers give the animals the right food and clean water.

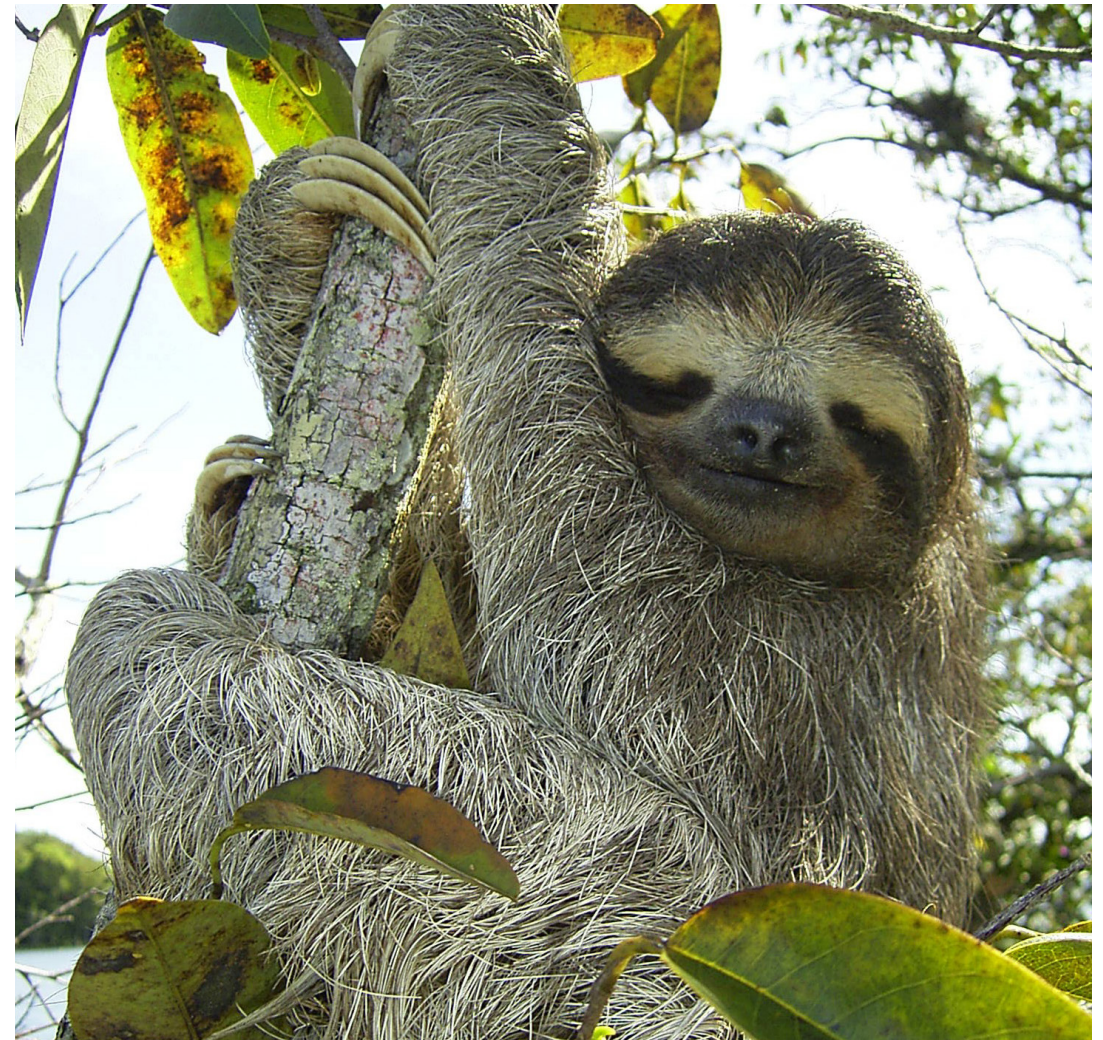

WILD ANIMALS

A wild animal lives freely in nature.

Wild animals find their own food and water.

They make or find their own homes (shelter).

SPOT IT!

Name these animals.

Which one is a pet, farm animal and wild animal?

Can an animal ever fit into more than one group?

PART 2:
JOIN THE ADVENTURE

QUESTION TO INVESTIGATE

Identifying, classifying and grouping

How can we tell if an animal is a pet, farm animal or wild animal?

ACTIVITY

Look at the different animals that need help today.
Match each animal to the vet which can treat them.

Vet Cait treats
pets

Vet Shashank treats
farm animals

Vet Bridget treats
wild animals

PART 3:
BE THE CHANGE

BE THE CHANGE...

Look at the 2 photographs.
What do you **see**? How does the photo make you **feel**?
What do you **think**? What do you **wonder**?

THE RIGHT HABITAT

Animals need the right place to live (their habitat) to stay healthy.

Our vets rescued 3 lions that had been kept as pets in a small cage.

Is a small cage the right place for a lion to live?
Explain your thinking.

BE AN ANIMAL CHAMPION!

Can you think of another wild animal that should not be kept as a pet?

Draw your animal in the wild.

Explain why it should not be kept as a pet.

EXIT TICKET – SHOW WITH YOUR FINGERS...
